Claims 1-15 are allowed. The following is an examiner's statement of reasons for allowance: the present invention is related to a noise reduction method and apparatus comprising a user interface for reducing noise in an audio signal using the combination visual and audio features.

The claims are allowed because the prior arts of record do not, alone or in combination, teach a noise reduction method where an estimated noise power density spectrum that is based on extracted audio and visual is subtracted from a discrete signal spectrum of the audio sequences as now recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel D. Abebe whose telephone number is 571-272-7615. The examiner can normally be reached on monday-friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Hudspeth can be reached on 571-272-7843. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
